

Voltron/Snoop Dogg Crossover Story by Princess Iris
Chapter 9: Snoop Dogg & Company Come Along

This part begins with Shante laying in her daughter, Cori's bed tellin her daytime stories.

Cori- Mommy, where are we goin tomorrow?

Shante- We are gonna be takin a long vacation to a place that only exists in u'r dreams & fantasies.

Cori- What may that be?

Shante- We will be venturing into space amongst many planets & stars to the Prince & Queen's home galaxy.

Cori- I wonder what we'll see.

Shante- Many beautiful places with castles, Kings, Queens, & Princes.

Cori- And I must be the Princess. (Smiles)

Shante- U never know what we're gonna see. It's like nuthin u see here everyday.

Cori- How far we goin?

Shante- Beyond space & time, but we will definitely be comin home.

Snoop Dogg walks in.

Snoop Dogg- Hey, my Queen, how's our Princess?

Shante- She's alright. It's just that she's worried about our big journey tomorrow.

Snoop Dogg- Hey, it's gonna be a fun journey. We're all gonna have lots of fun on the Prince's spaceship.

Cori- I can't wait.

Snoop Dogg- Now get some sleep Princess. We have a long ride ahead of us.

Shante- (Kisses her little girl's cheek) Goodnite sweetie.

In the TV Room, Lamora was watchin TV with Snoop's other 2 puppies.

Lamora- (Talks to herself) I hope we're okay taking Snoop & his family with us.

Prince Lotor walks in the room.

Prince Lotor- Did I hear u say something?

Lamora- Oh, I was worried about taking these kids over on the ship in the event u'r Fathers forces are to spot & attacks us.

Prince Lotor- We should have nuthin to worry about.

Lamora- What makes u say that?

Prince Lotor- I've got a surprise for u to see.

Queen Merla walks in.

Queen Merla- Yeah, him & Snoop had some detailing experts here all of yesterday redoing the ship's exterior, so none of the Doom or Drule Empire's forces will recognize Lotor's ship.

Corde- Let's go outside & see it.

(Everybody goes out back to see the ship)

Lamora- (Looks at ships & opens eyes & mouth up wide) Oh my gosh! Lotor what did u do?

Prince Lotor- (Smiles) When me & Snoop were deciding how to disguise my ship, so my Father wouldn't recognize it, we both thought we should make the ship look more & more Gangsta. It's called Pimpin Up My Battleship.

Cordell- That's what they did to that plane on that Soul Plane movie my Daddy played in.

Prince Lotor- Yeah, that's where he got the idea from.

Corde- Damn, that ship looks tight!

Cordell- I can't wait to ride in it.

Queen Merla- Well, u'll be gettin u'r chance. This shall be u'r temporary home for a while.

Corde- Man, this is gonna be so awesome. I wanna see Voltron!!

Prince Lotor- I can't promise that u'll get to see him, but I'll see to it that u get the chance.

Lamora- Now let's all get some shut eye.

Prince Lotor- Goodnite Lamora.

Lamora- U too Prince. Sleep tite.

Outside Lotor & Merlas are talkin.

Prince Lotor- I can't believe were goin home.

Queen Merla- It must feel strange after being away so long.

Prince Lotor- And u know the best part about it is that I don't feel torn up inside. I've been renewed & refreshed.

Queen Merla- U've changed so much. I'm luvin this more & more each minute. Is something wrong Lotor?

Prince Lotor- Merla, it's fuel for the ship & money. Damn! I'll have to stop on Arus to get fuel & Doom to raid my father's bank chambers again & this time, I'm cleanin it out.

Queen Merla- Oh, u can't do that. Doom is much to dangerous for u to even be trying that Lotor. U must be out of u'r mind to think of doing that.

Prince Lotor- Not if the Vehicle Voltron force comes with us.

The crew are outside in the Battleship ready to get ready for take off.

Snoop Dogg- Lotor, are u sure we should stop at Planet Doom just to raid u'r Pap's treasure chest? Besides u probably got even more dough waiting for u at u'r Mama's planet.

Prince Lotor- The point is I want to be safe until we reach our destination. One thing I hate when traveling thru space is being broke. I'm not broke yet, but have spent up a pretty good fortune of the funds during my stay here. I'll need to stock back up. After all I've been thru with my Father, he owes me.

Snoop Dogg- I feel u on that. I'm with u, but am wondering if we'll be safe. If u'r Father's forces find us, it's sianora.

Prince Lotor- That's why I'm right now tryin to contact the Alliance. I'll need a decoy to distract their forces while I get thru this obstacle course.

Snoop Dogg- What do u have in mind?

Prince Lotor- I would ask the Voltron Force on Planet Arus, but Commander Keith is such a tightwad. He wouldn't help me, even if his life depended on it. However, even if he doesn't want to assist me, I do remember when I lead my Father's Fleet Of Doom forces. When the Lion

Voltron was pinned down by one of my Father's robeasts, there came the Vehicle Voltron force to save the day.

Snoop Dogg- Oh yeah, do u think they'll assist us?

Prince Lotor- We can try. All they can say is no.

Prince Lotor contacts the Alliance.

Prince Lotor- Galaxy Alliance come in pleaz.

Commander Steele- Lotor, may I assist u?

Prince Lotor- Commander, it's great to see u. If u don't mind, I have a huge favor I must ask of u.

Commander Steele- I'll be happy to assist u with whatever u need, Lotor.

Prince Lotor- I must go to Planet Doom to raid my Father's treasure chest for gold & money, but can't do it alone. I'll need some forces to distract his forces while I go & rip off his gold.

Commander Steele- Smart thinkin Lotor. Afterall, I've heard thru the grapevine that Zarkon is having a cow over is missing funds. (laughs) I'll be happy to do whatever to help u weaken his forces.

Prince Lotor- At the same time, I can rescue as many slaves as possible. Queen Merla has told me that my cousin had taken many people from Pollux & Arus as slaves.

Commander Steele- I definitely support u in u'r quest Lotor & wish u a safe mission. I shall dispatch the Vehicle Voltron Force, cuz I understand that u & Commander Keith can't seem to come to grips.

Prince Lotor- I hope one day, me & Keith will put our past dealings behind us & make peace with each other. I've begun to come around on him, while I'm here, but don't know how he feels about me.

Commander Steele- The Vehicle Force will be of great assistance to u sire.

On the S.S. Explorer, Commander Jeff, Cliff, Hutch, & Zolo are sitting at a table eating dinner. Commander Hawkins walks up to them to inform them of the news they got from Prince Lotor.

Cliff- From the way that planet looked, it was no tellin if any lifeforms could still be there.

Commander Jeff- Wolo thinks so, but they could've been ran off by the Empire. That doesn't matter now, cuz I would like to find more out about Aden.

Commander Hawkins- Did I hear u say something about a Planet Aden?

Hutch- We were just talkin about it.

Commander Hawkins- Well, we may be taking a long journey there to check the place out, but I have a big favor to ask of u & rest of the Voltron force.

Cliff- What may that be?

Commander Hawkin- This longtime friend of Hazar's is on a mission to his home Planet which is Doom to recover some monies has requested our assistance.

Commander Jeff- If they're a friend of Hazar's & not anybody else in the Empire, we'll be more than happy to lend a hand. I wonder what friend this might be.

Commander Hawkins- U might not be all that crazy about him, cuz of things he's done & all that u've heard from the Lion Voltron Force.

Commander Jeff- I wonder who this might be. Ohh, could it be King Zarkon's evil son, Prince Lotor. No no no no no. Stemming from what Commander Keith & all the others have told me about him, I'm afraid we might have to pass.

Commander Hawkins- Jeff, it's not what u think. Lotor has uped & left Planet Doom almost 6 months ago due to the torture he had to endure at the hands of his Father & his forces. He has renounced his evil ways & is on a journey to explore a planet where his mother came from known as Aden to research his family heritage.

Cliff- Then why does he need us?

Commander Hawkins- He claims he's low on funds that he'd taken from the Doom Empire when he left. Lotor now wishes to make a pit stop there to recover more plus rescue slaves.

Hutch- Boy, I bet ole Zarkon has found out about those missing funds & is trippin out his ass. (Laughs)

Commander Jeff- Hey now come to think about it, if Lotor has nerve to do that, then he must have turned on the old tyrant & his forces.

Hutch- He's probably shittin a brick over that. Lotor shouldn't even attempt Doom alone, cuz Zarkon will find him & that will be the last of them.

Wolo- He's even wishin to defeat the bastard. I'd say count us in.

Commander Hawkins- We must meet up with Lotor at the end of the Crimson Quartz. His ship isn't recognizable, cuz he did some alterations to it during his stay on Planet Earth. We must make sure he's safe, not only for his sake, but he has Rapper; Snoop Dogg & his family traveling in the ship with him & Queen Merla.

Commander Jeff- I say let's try this out.

Cliff- I'm actually gonna enjoy this.

On Commander Hazar's Battleship, him & his sister Dorma are chillin & kickin back.

Dorma- What a wonderful time to relax. No invasions, attacks, & battles to deal with. I wish it could always be this way.

Hazar- It sure would be. Peace, luv, & happiness among all peoples would be the greatest thing ever to happen in the whole universe.

Dorma- I could indulge myself in more pleasures.

Hazar- Like our old friend, Prince Lotor has been doin for the last 6 months. (Laughs) He finally had the gutz to up & leave that old monster.

Dorma- I'm sure proud of him for leaving. He's such a gentle & spirited man to admire. It's why I've adopted him as my brother. Where did u find out about Lotor from?

Hazar- It was on the grapevine. King Zarkon is highly furious that his son has willfully left Planet Doom without his permission along with discovering that a big chunk of his funds have come up missing. He said the only other person who'd have the key to the lockroom at the castle would be his son, Lotor.

Dorma- Well, whatever it is, our friend doesn't deserve to be Zarkon's victim & carry out his evil deeds at the same time. Lotor has a horrible reputation throughout this universe all, because of his Father. Hey, were gettin a signal on the Comm. Monitor.

Hazar- Hey, it's Commander Hawkins.

Commander Hawkins- Hey, Commander Hazar, it's nice to run into u again.

Hazar- Same to u. Where u guys headed to anyway?

Commander Hawkins- Well, it's one reason that I'm happy to run into u. We're on our way to meet Prince Lotor over on the verge of the Crimson Quartz of the Denubian Galaxy. He's on a mission to rob his Father of his Goodie chest again, plus rescue some slaves.

Dorma- Hey, we'll get to see Lotor. Oh I can't wait.

Hazar- It's been forever since I seen him. I'll be happy to help him in rippin off the asshole.

Commander Hawkins- Nice to have u join us. I know Lotor would be happy to see u again.

In a matter of minutes, Hazar's Command ship is entering Planet Doom. Largo from the Rogue Galaxy is over at Doom assisting King Zarkon & his forces & notices Hazar's ship entering Doom.

Doomite- Commander Largo, we have an unrecognized ship gettin ready to land.

Commander Largo- Who? What? Why's that fool Hazar & his sister Dorma coming here to Planet Doom?

Cossack enters the ship.

Cossack- Largo, what seems to be the problem.

Commander Largo- Cossack, we've got some unexpected company. Get u'r robot ships ready to fire.

Cossack- Fleet, fire missiles at that ship!

Robots fire missiles.

Hazar- Oh no, Lotor, it looks like someone spotted us.

Prince Lotor- This aint good.

Hazar- U must veer around me, while I hold them off.

Prince Lotor- I must help u, cuz there are too many.

Commander Jeff- Don't worry about the odds Lotor, cuz we got u'r back. Let's form Voltron.

Vehicle Voltron is formed.

Prince Lotor & Hazar both land outside Castle Doom. Snoop Dogg is inside the spaceship wishing Lotor a safe return.

Snoop Dogg- Nephew, u betta be careful out there. I'm feelin really eery about this place. I'm freakin out enuff in this muthafucka, but it will really be over if somethin happens to u out there.

Prince Lotor- Snoop, u'r safer staying inside the ship with the doors locked. Keep u'r family in there hiding places. Here's u a laser gun in case u have any problems. U also have Voltron. Lamora is staying here with u in the event u need help learning how to work the equipment on my spacecraft.

Snoop Dogg- I'll be prayin for u & Merla.

Queen Merla- Let's go Lotor.

End of Part Nine
